Commissioner for Patents
United States Patent and Trademark Office
P.O. Box 1450
Alexandria, VA 22313-1450
www.uspto.gov

Date : June 23, 2006
Patent No : 7,024,333
Inventor : Rogele et al.
Issued : Apr. 4, 2006
For : COORDINATE MEASURING APPARATUS

Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule 1.322.

Respecting the alleged error(s) regarding Item (30), after inspection of the application, it is revealed in the Bib Data Sheet - sent with the Notice of Allowability, that the primary patent examiner informed the attorney/applicant that, "None of the Copies of the certified copies of the priority documents had been received..." thus, the conditions for Foreign Priority Claimed under 35 USC 119(a-d), have not been met. In addition, there are no certified documents of the priority claimed, in the electronic application. Therefore, being no fault of the Patent and Trademark Office, no correction(s) is/are in order here under United States Codes (U.S.C.) 254 or 255 and the Code of Federal Regulation (C.F.R.) 1.322 or 1.323).

In view of the foregoing, your request is hereby denied.

For further consideration, submit a Reconsideration Certificate of Correction along with 1) supportive documentation showing that the certified copies were received by the PTO, include post card receipts and copies of the certified priority documents, or 2) if you do not submit supportive documentation proving prior transmittal to the PTO, a petition may be necessary.

Note: This is a general hint, which may decrease the processing time of your request. If you obtain data that clearly shows the attorney/applicant is not in error, simply include proving/supporting documentation and associated post card receipts, along with your certificate of correction or reconsideration via postal mail, not by fax. If you do not have supporting documentation that clearly shows the attorney/applicant is not in error and verifies that the PTO is in error regarding the matter in your request- then, the appropriate fee of \$100.00 with your "Certificate of Correction" or "Reconsideration Certificate of Correction" - will be necessary. Without supporting documentation, depending upon the matter in your request, it is possible - that in addition, a petition with its appropriate fee of \$130.00 may be necessary, or the request may be denied. Please be advised that - "identification of the exact point of error by reference to column and line number of the printed patent" provides clarity for processing a request. Please see the MPEP for further instruction and understanding.
